| nonprovisional | NO           | \$1510        | \$300               | \$0                  | \$1810           | 09/07/2010 |

THE APPLICATION IDENTIFIED ABOVE HAS BEEN EXAMINED AND IS ALLOWED FOR ISSUANCE AS A PATENT. PROSECUTION ON THE MERITS IS CLOSED. THIS NOTICE OF ALLOWANCE IS NOT A GRANT OF PATENT RIGHTS. THIS APPLICATION IS SUBJECT TO WITHDRAWAL FROM ISSUE AT THE INITIATIVE OF THE OFFICE OR UPON PETITION BY THE APPLICANT. SEE 37 CFR 1.313 AND MPEP 1308.

THE ISSUE FEE AND PUBLICATION FEE (IF REQUIRED) MUST BE PAID WITHIN THREE MONTHS FROM THE MAILING DATE OF THIS NOTICE OR THIS APPLICATION SHALL BE REGARDED AS ABANDONED. THIS STATUTORY PERIOD CANNOT BE EXTENDED. SEE 35 U.S.C. 151. THE ISSUE FEE DUE INDICATED ABOVE DOES NOT REFLECT A CREDIT FOR ANY PREVIOUSLY PAID ISSUE FEE IN THIS APPLICATION. IF AN ISSUE FEE HAS PREVIOUSLY BEEN PAID IN THIS APPLICATION (AS SHOWN ABOVE), THE RETURN OF PART B OF THIS FORM WILL BE CONSIDERED A REQUEST TO REAPPLY THE PREVIOUSLY PAID ISSUE FEE TOWARD THE ISSUE FEE NOW DUE.

#### HOW TO REPLY TO THIS NOTICE:

I. Review the SMALL ENTITY status shown above.

If the SMALL ENTITY is shown as YES, verify your current SMALL ENTITY status:

A. If the status is the same, pay the TOTAL FEE(S) DUE shown above.

B. If the status above is to be removed, check box 5b on Part B - Fee(s) Transmittal and pay the PUBLICATION FEE (if required) and twice the amount of the ISSUE FEE shown above, or

If the SMALL ENTITY is shown as NO:

A. Pay TOTAL FEE(S) DUE shown above, or

B. If applicant claimed SMALL ENTITY status before, or is now claiming SMALL ENTITY status, check box 5a on Part B - Fee(s) Transmittal and pay the PUBLICATION FEE (if required) and 1/2 the ISSUE FEE shown above.

II. PART B - FEE(S) TRANSMITTAL, or its equivalent, must be completed and returned to the United States Patent and Trademark Office (USPTO) with your ISSUE FEE and PUBLICATION FEE (if required). If you are charging the fee(s) to your deposit account, section "4b" of Part B - Fee(s) Transmittal should be completed and an extra copy of the form should be submitted. If an equivalent of Part B is filed, a request to reapply a previously paid issue fee must be clearly made, and delays in processing may occur due to the difficulty in recognizing the paper as an equivalent of Part B.

III. All communications regarding this application must give the application number. Please direct all communications prior to issuance to Mail Stop ISSUE FEE unless advised to the contrary.

IMPORTANT REMINDER: Utility patents issuing on applications filed on or after Dec. 12, 1980 may require payment of maintenance fees. It is patentee's responsibility to ensure timely payment of maintenance fees when due.

### PART B - FEE(S) TRANSMITTAL

### Complete and send this form, together with applicable fee(s), to: Mail Mail Stop ISSUE FEE

Commissioner for Patents P.O. Box 1450 Alexandria, Virginia 22313-1450

or Fax (571)-273-2885

# **Determination of Patent Term Adjustment under 35 U.S.C. 154 (b)**

(application filed on or after May 29, 2000)

The Patent Term Adjustment to date is 1073 day(s). If the issue fee is paid on the date that is three months after the mailing date of this notice and the patent issues on the Tuesday before the date that is 28 weeks (six and a half months) after the mailing date of this notice, the Patent Term Adjustment will be 1073 day(s).

If a Continued Prosecution Application (CPA) was filed in the above-identified application, the filing date that determines Patent Term Adjustment is the filing date of the most recent CPA.

Applicant will be able to obtain more detailed information by accessing the Patent Application Information Retrieval (PAIR) WEB site (http://pair.uspto.gov).

Any questions regarding the Patent Term Extension or Adjustment determination should be directed to the Office of Patent Legal Administration at (571)-272-7702. Questions relating to issue and publication fee payments should be directed to the Customer Service Center of the Office of Patent Publication at 1-(888)-786-0101 (571)-272-4200.

Art Unit: 2614

#### REASONS FOR ALLOWANCE

1. Claims 7-17 are allowed.

2. The following is an examiner's statement of reasons for allowance:

Regarding independent claims 7 and 17, Ebizuka (US 6,509,742) disclose a device and method for measuring radio interference levels in a particular frequency range (column 3, lines 23-45) in that tuning is carried out during a preliminary measurement of the frequency range (column 3, lines 23-27, and also figure 1, "Spectrum Analyzer" 16), the measured level of the signal being measured is sensed at each measurement frequency (column 3, lines 23-24, measures the peak field intensity) and compared with a threshold value (column 3, lines 33-36, "..at which the peak field intensity exceeds a predetermined threshold..", "the peak field intensity" being measured by a spectrum analyser (column 3, lines 23-27), and when the threshold value is exceeded by the measured level, the level measured at the corresponding measurement frequency is identified as a radio interference level (column 3, lines 33-36); in a post-measurement step (column 3, line 28), each identified radio interference level is more precisely measured to pinpoint its variation in time, the centre frequency (column 3, lines 28-30, "The quasi-peak measuring section measures...at a pre-set frequency", the "pre-set frequency" representing the centre frequency, also figure 12, step 610) of the measurement frequency range used during post-measurement being reset to the centre frequency of the changing radio interference level newly determined during the preceding preliminary measurement (column 3, lines 28-37) for each of the identified radio interference levels (column 4, lines 5-19, the behavior of measured

signal forms measured at different points in time is analysed (compare a waveform) (column 3, lines 23-62) indicates that a preliminary measurement is first carried out (column 3, lines 23-27), then a post-measurement is carried out for a peak which exceeds a threshold value (column 3, lines 28-45). An error message is issued when the post-measurement result (QP measurement) deviates too strongly from the preliminary measurement result (peak field intensity measuring) (column 3, lines 46-62).

However, the cited prior art fail to disclose or suggest:

post-measurement is carried out for each identified radio interference level comprising: detecting a frequency drift mid-frequency of a frequency range for post-measurement by tracking each marked radio-interference level to the mean frequency of said radio-interference levels marked in the immediately prior pre-measurement stage; and

pre-measurement and post-measurement stages are cyclically repeated in alternation.

#### Conclusion

- 3. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.
- Arimitsu (US 7,664,521) Target value control system for Transmission power Control and Method Thereof and Base Station and Mobile Communication Terminal
